PRICE LIST – SPECIAL WORK

Prints in panorama format

For prints in panorama format with an aspect ratio of 1:1.75 and above, a surcharge of maximum 30 % shall apply to prints on roll paper (e.g. applies to 100 cm x 175 cm).

Four-sided trimming

Final paper size up to (in cm)	Net price
30 x 45	10 EUR
40 x 60	18 EUR
60 x 90	24 EUR
100 x 125	30 EUR
100 x 180	36 EUR

When trimming sheet material, tolerances of up to 1.5 mm are possible. The trimming tolerance for roll material may be larger. Edges up to 125 cm in length are cut with a roll cutter; those longer than 125 cm are cut manually using a Japanese knife and a metal ruler. Deviations in straightness and dimensional accuracy resulting from this process of up to 3 ‰ of the respective edge length are permissible. We strive to keep these deviations as small as possible, and we generally achieve a high degree of accuracy. When trimmed with a knife or roll cutter, certain paper types may exhibit minimal delamination at the edges or corners, as a horizontal force acts on the paper layer and the associated paper fibers during trimming—even when using extremely sharp knives.

Notes on file specifications

Files supplied by the customer must conform in their technical characteristics (profile, resolution, dimensions, trimming etc.) to the file specifications of Digital Darkroom Berlin (see https://digital-darkroom.de/en/fine-art-prints-inform-order/#file-format).

Digital Darkroom Berlin does not assume any liability for faulty prints due to incorrect file properties (e.g. size, resolution, margins, inadequate retouching).
