- (\*) The file size is the possible minimum print size at 300 dpi including post production and normal retouching of the created reproduction (print) file.
- Post-production: The reproduction file is adjusted with the original under D50 standard light (5,000 K) on a calibrated monitor until the maximum possible match (e.g. colors, contrast, detail reproduction) is achieved. Retouching appropriate to the output size is included in the price.
- Prices indicated are standard prices for normal originals. Additional costs for retouching the highlights may be incurred for high-gloss originals or paintings with high-gloss varnish. We will inform you about this in advance.
- Prices do not include restoration of damaged originals.
